Dust Maid Handled Dusting Tool – Versatile, Washable & Durable

The **Dust Maid Handled Dusting Tool** is a versatile and efficient cleaning accessory designed for general dusting tasks around the home or workplace. Its unique V-shaped synthetic fibre fringe is specifically engineered to reach into tricky spaces, making it perfect for dusting pipes, radiators, Venetian blinds, and other hard-to-reach areas.

Crafted with a durable plastic handle, the **Dust Maid** can be easily attached to an extension pole for effortless high-level dusting, reducing the need for ladders or stools and improving safety during cleaning.

The premium-quality synthetic fibres are washable and reusable, ensuring long-lasting performance and cost-effectiveness. The fork-shaped fringe design traps dust and dirt effectively, providing a thorough clean without spreading particles into the air.
