Enhance Carpet Foam Shampoo – 2 x 5L

Enhance Carpet Foam Shampoo is a premium carpet cleaning solution designed to deliver exceptional results in both residential and commercial environments. This powerful yet gentle formula effectively lifts embedded dirt, grime, and allergens from deep within carpet fibres, leaving your floors hygienically clean and revitalised.

Infused with cutting-edge **ONT (Odour Neutralising Technology)** and **Neutrafresh™**, the shampoo doesn't just mask odours, it eliminates them at the molecular level, replacing unpleasant smells with a long-lasting fresh apple fragrance. Whether you're tackling high-traffic office spaces, hospitality settings, or home interiors, Enhance Carpet Foam Shampoo ensures a thorough clean and a fresh, inviting environment.

Approved by Woolsafe, this formulation is safe for use on wool and wool-rich carpets, offering peace of mind for delicate flooring materials. The shampoo forms a rich, absorbent foam that traps dirt and soil, which then dries into fine crystals that can be easily vacuumed away, making clean-up quick, effective, and residue-free.

Its low re-soiling properties and built-in soil barrier technology help maintain cleaner carpets for longer, reducing maintenance frequency and preserving carpet appearance over time.
