

Bryta Dishwashing Detergent

Liquid Detergent for Dishwashing Machines

Description

A concentrated liquid mechanical ware washing detergent specially formulated to provide excellent soil removal in all water conditions.

Bryta Dishwashing Detergent is suitable for use on most materials commonly encountered in the kitchen. Do not use on alkali sensitive items such as copper, brass, aluminium or rubber.

Key properties

- It is a heavy duty alkaline liquid detergent containing a blend of caustic alkali and scale control agents.

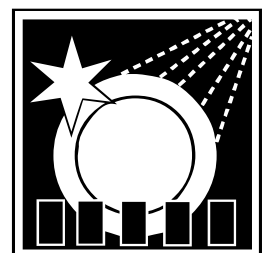

Benefits

- Cuts through grease and dried on food.
- Helps prevent scaling in the Dish Washer when used at the correct concentration.
- Concentrated product gives economy in use.

Use instructions

Bryta Machine Dishwashing Detergent should only be used through the automatic dosing equipment fitted to the Dish Washing Machine.

Dosing levels are normally pre-set on machines with auto-dosing equipment but dosage range should be between 1 - 8 g/l
