

Deosoft breeze conc

54B1

Fabric Softener - longlasting and odour-counter acting

Description

Clax Deosoft Breeze conc is a fabric softening liquid with malodour neutralizing technology specially formulated for use in commercial and on premise laundries. The product is suitable for application on most types of fabric and can be manually or auto-dosed.

Key properties

Clax Deosoft Breeze conc is a concentrated fabric conditioner based on biodegradable cationics, quaternary ammonium salts. In the wash solution, these positively charged cationics, adsorb to the negatively charged surface of fabrics. Once adsorbed onto fabric the cationic has a lubricating effect. During the drying process, this prevents interlocking of individual fibres and build-up of static electricity (especially on synthetic fibres). In addition lubrication facilitates ironing/calendering. The product has also been formulated with a longer lasting modern perfume, which leaves a pleasant smell on fabric. The product also contains Odour Neutralizing Technology, which reacts with malodour molecules to inactivate them. This is more effective than only masking malodours with a perfume. Clax Deosoft Breeze conc can be used for most types of fabrics, but is particularly effective on bulked or textured fabrics such as towels. It also imparts a smooth, silky feel on woven or flat knitted fabric.

Benefits

- Good softening of many types of fabric (towels, sheets, wool, delicate articles etc)
- Prevents build-up of static electricity on synthetic fabrics
- Delivers a pleasant residual smell
- Is based on biodegradable raw materials
- Contains Odour Neutralizing Technology for highly effective elimination of malodours

Use instructions

Dosing level is dependent on wash classification.

The softener should be applied in the last rinse of a washer extractor or in the last section of a continuous batch washer.

Dosage recommendation: 3 - 6 ml/ kg dry goods

Please note that this product should not be used on: articles made of micro polyester fibres such as cleanroom garments and water repellent theatre linen and cleaning microfibre cloths/wipes.

**This dosage is according to optimal conditions, recommendations may vary, please consult with your Diversey representative for directions.*
