

OT01LD	1ml low dose oral syringe
OT25LD	2.5ml low dose oral syringe

Medicina low dose oral syringe (ENFit compatible)

Medicina Ltd. has developed a low dose syringe that is designed to give medication or enteral feed orally.

The oral tip one piece syringe has a smooth barrel and tip to make giving oral medication and feeds less traumatic for small babies and children.

Cup fill is not recommended. If used please remove any fluid from the "moat" this is not in the fluid path but will go into the threads of the male ENFit connector and may cause connection problems

Oral tip syringes

OT005 0.5ml oral tip syringe (100)

OT01 1ml oral tip syringe (100)

OT01LD 1ml low dose oral tip syringe* (100)
