

Odor Counteractant

Buckeye Eco Odor Counteractant is a patented, liquid odour counteractant formulated with exotic oils that chemically react on contact with urine, feces, food waste, and other foul-odour substances to eliminate odours at their sources. Buckeye Eco Odor Counteractant combats the unavoidable odours associated with long-term care facilities, nursing homes, hospitals, medical centers, and schools and universities.

FEATURES • ADVANTAGES • BENEFITS

FEATURES

- Eliminates odours
- Chemically reacts on contact with foul-odour substances
- No added perfumes or dyes

ADVANTAGES

- Odour is gone, does not mask odour with heavy perfume
- Reduced raw materials

BENEFITS

- Saves labour and product costs by employee not continually spraying to cover odour
- Saves on product cost and is better environmentally due to less shipping, fuel and exhaust

1.25 L Bag Yield Rate

1:64 makes 21.5 end-use litres

Each 4x1 case makes 324 end-use litres

1:16 makes 21 end-use litres,
which is equivalent to:

22
quarts (946 mL/32 oz)

**Each 4x1 case makes 90 end-use quarts/
84 end-use litres**

Directions for Use

Connecting 1.25 L Bags to Eco Unit

1. Remove 1.25 L bag from carton.
2. To open the Eco unit product compartment, depress the top of the unit with your fingers and pull the compartment down towards you with your other hand.
3. Align Eco unit connector cap lugs with 1.25 L bag metering plug channels. Rotate clockwise to lock in place.
4. Fit 1.25 L bag neatly into product compartment with hose barb pointed downward.
**Ensure chemical line is not pinched.*
5. Close Eco unit product compartment.

Dispensing Diluted Product into 946 mL Trigger Spray Bottle

1. Use appropriate 946 mL trigger spray bottle, and slide up over 127 mm discharge hose.
2. Push back lever to dispense cold water diluted product.
3. Once trigger spray bottle is filled (approximately 51 mm from top), release lever to avoid overfilling.

Dispensing Diluted Product into Mop and Bucket/Other Equipment

1. Position Eco unit discharge hose into mop bucket or other equipment.
2. Press green button below appropriate product to dispense cold water diluted product.
3. For hands-free operation, push the appropriate green button once to dispense cold water diluted product. Once filled, push the button again to stop product flow.

For carpeted areas, test for colour fastness and bleeding.

Available in:

1.25 L
bags
